

ATHENS course

(CTU22)

Geometrical Aspects of Spectral Theory

David Krejčířík
(David.Krejcirik@fjfi.cvut.cz)

18–22 March 2024

	09–10	10–11	11–12	12–13	13–14	14–15	15–16	16–17	17–18	18–19
Monday	lectures							exercises		
Tuesday	lectures							exercises		
Wednesday	lectures						museum visit			
Thursday	lectures							exercises		
Friday	lectures								dinner	

	mandatory course	}	Trojanova 13, room 425–426 (4th floor) *
	optional exercises		
	free time or events unrelated to the scientific part		

Study material: <http://nsa.fjfi.cvut.cz/david/other/gspec.pdf>

* How to reach the lecture room: Enter the building (Trojanova 13), climb the front stairs to the **2nd floor**, turn **right** (to west) and continue till you reach a **back staircase** (situated in the northwestmost part of the building), take it to the **4th floor** where the lecture room is located.

Alternatively, you can reach the 2nd floor from the entrance by a lift (situated on the left) and then take a different lift (situated on the 2nd floor on the way to the back staircase) to the 4th floor.
